

ANJAL RAI

Full Stack Developer

9702936485 | anjalsotang26@gmail.com | anjalrai.vercel.app

PROFILE

BSc. (Hons) Computing graduate and Full Stack Developer with hands-on experience in building scalable web applications using Node.js, Express, and React.js. Experienced in designing RESTful APIs, database management with MySQL and PostgreSQL, and implementing real-world features such as automation, data migration, and testing. Skilled in modern development workflows including Git, Agile methodologies, and code reviews. Passionate about solving complex problems and building efficient, production-ready systems while continuously learning and growing as a developer.

WORK EXPERIENCE

FULL STACK DEVELOPER INTERN

PortPro Pvt. Ltd.

Nov 2025 – Apr 2026 (5 Months)

- Implemented testing with Jest to safeguard business logic during PR merges; contributed to code reviews, debugging, and optimization using Git.
- Designed RESTful APIs, performed data migrations, and created automation/web scraping scripts.
- Collaborated in teams using Git, participating in code reviews and gaining experience in debugging and deployment workflows.

NODE.JS BACKEND INTERN

Hunccha Digital | Certificate Link

June 2023 - September 2023

- Developed backend features for a School Management System using Node.js, Express.js, Sequelize, and MySQL.
- Implemented authentication, attendance, exam scheduling, and role-based access control.
- Designed and optimized RESTful APIs for seamless front-end integration.
- Improved database performance through efficient schema design and query optimization.

Itahari International College | Certificate Link

February 2023 - August 2023

- Provided technical support in networking and database management.
 - Assisted in system maintenance and troubleshooting IT issues.
 - Applied IT skills to real-world college operations and projects.
-

PROJECTS

Collab Web (Project Management System) — Ongoing

- Developing a full-stack project management application to help teams organize projects, assign tasks, and track progress efficiently
- Implemented Agile-style task boards (Kanban) for real-time task tracking and workflow visualization
- Built features for task assignment, status tracking, and team collaboration within projects
- Integrated a task-level commenting system to enable seamless communication and collaboration among team members
- Developed real-time updates using Socket.IO, improving responsiveness and user experience
- Designed and completed both client panel and admin panel with role-based access and management capabilities
- Implemented automation workflows using cron jobs for scheduled tasks and background processing
- Currently integrating AI-powered agents (Google ADK) to assist with automated replies and intelligent content generation
- Tech Stack: React.js, Node.js, Express.js, PostgreSQL, Sequelize, Socket.IO, Cron, Google ADK, Tailwind CSS
- Live Demo: [View Project](#)

Intern Recruiter System (Full Stack) - 2025

- Built a full-stack intern recruitment platform with React, Node.js, and Express.js.
- Implemented authentication, role-based dashboards, application tracking, and real-time notifications.
- Tech Stack: React, Zustand, Tailwind CSS, Axios, Node.js, Express.js, MongoDB, Mongoose, JWT, Multer.
- Live Demo: [View Project](#)

FitTrack (Fitness Tracking Web App) - 2025

- Created a full-stack fitness tracking app with real-time updates and AI-powered workout plans.
- Integrated Socket.IO for live tracking and Groq Open API for personalized AI plans.
- Tech Stack: React.js, Redux, Tailwind CSS, Shadcn UI, Node.js, Express.js, MySQL, Sequelize, Socket.IO, Groq API.
- Live Demo: [View Project](#)

CERTIFICATIONS

30-Day React.js Course- Digital Pathshala (2025)

7-Day React.js Crash Course - Code IT | [Drive Link](#)

Node.js Certification Course

EDUCATION

BSc (Hons) Computing

Itahari International College,
London Metropolitan University |
Sundarharaicha-4, Dulari, Morang
